Issue Description:	With web Front-End, it is not possible to add an image in a diagram • The action 'Paste' of an image has not effect • There is not menu to insert an image file and configure it position Notes: • Web Front-End • Web diagram • Image
Knowledge Article Details:	This is a gap between Windows Front-end and Web Front-end This would required various platform evolution and is therefore considered as a possible improvement

Improvement request ECR R-002125

Work-around:

Use Windows Front-end to add the image

Reminder

With Windows Front-end (HOPEX V1R2-V1R3 CP13.0), in a diagram

It is possible to add an image to a diagram using a menu

It is not possible to add an image to a diagram by copy/paste

FAQs

It is possible to build a custom command using API and insert and image?
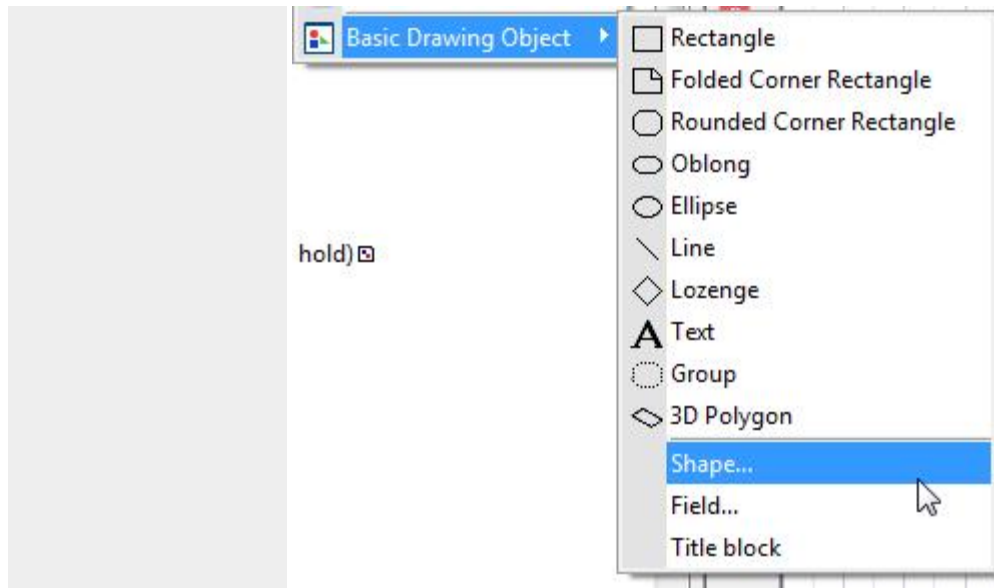

This has to be tested

See 00003461

How to use Windows Front-end to add the image?

In a diagram, click the menu Insert > Basic Drawing Object > Shape...

Select tle image file (ex: test.jpg)
